Potty Wand

A potty wand must be provided at any facility that does not also provide a dump station. A dump station is designed especially to receive portable toilet waste. The purpose of the potty wand is to facilitate disposal from portable toilets.

Wand attachments may be connected to a pumpout station to empty portable toilets.

Examples of Potty Wands

Portable Toilet Pump Out Adapter

Item Number: 274-150

\$18.00

Called a Potty Wand this pump out adapter is used to pump out portable toilets by providing a removable washable extension to a suction hose. It is made of a 1½" ID pipe section and a 1½" male quick clamp adapter. It clamps on to the suction end of a pump out hose equipped with a 1½" female quick clamp.
