O&M (Operations and Maintenance) **ELIGIBLE EXPENSES & NON ELIGIBLE EXPENSES**

O&M is intended for routine costs of operations and maintenance. Apply under the Construction/Upgrade program for equipment replacement or major repairs.

ELIGIBLE EXPENSES

Land-based stationary or mobile facility:

- Emptying of the holding tank by a permitted waste hauler (pumpout waste costs only). If the holding tank is used for waste from other sources, these costs will be pro-rated.
- Start-up/placement costs for the season and costs to winterize unit at end of season.
- Costs for routine maintenance and upkeep to the system that are directly related to the pumpout unit itself, such as new hoses, less costly replacement parts, plumbing and/or electrical parts, etc.
- A maximum reimbursement of \$500.00 will be considered for any marina that provides an attendant that is available to assist with pumpout use at least 120 hours per year.

Land-based facility that provides services to pumpout boats:

- See Pumpout Boat Support guidance.

Pumpout Boats:

- Costs for fuel, oil and routine maintenance for a pumpout boat.
- Costs to unwrap boat for the season and to shrink wrap the boat for the winter.
- Unlimited reimbursement will be allowed for personnel costs to provide service from a pumpout boat not to exceed the total reimbursable amount of \$5,000.00.
- Dock fees, if required.
- Hepatitis shots for pumpout boat personnel.
- Costs to offload waste.
- Pumpout boat insurance.

Either Land-based or Pumpout Boat:

- A flat administration reimbursement of \$250.00 will be applied to any facility that submits completed "Pumpout Usage Log" form(s) (see attached) to EFC with their request for funding. The information on this form will assist NYS in determining usage for long-term planning.
- A facility that charges a fee for pumpout use is **REQUIRED** to track fees collected and must report the fees with O&M costs in order to receive funding through the CVAP O&M program. The completed "Pumpout Usage Log" may also be used to track this income & is an acceptable proof of receipts.

NON-ELIGIBLE EXPENSES:

- No travel expenses will be reimbursed under this contract.
- Cost of dock hand at land based facilities is not an eligible expense due to the variety of tasks the person performs. However, if assistance is given for the use of the pumpout as described above, up to the maximum rate may be claimed.
- O&M that is related to anything other than the pumpout facility or which cannot be clearly separated from other expenses.
- Any direct charges for electricity, water, or other routine costs that are of the type supplied to other equipment and operations of the marina.
