**I&E (Information & Education)**

**REQUIREMENTS**

CVAP Local I&E Grants are **only** available to municipalities and Not-for-Profit organizations.

All I&E projects must focus on the benefits, use and/or availability of pumpouts.

All materials produced must focus primarily on the topic of pumpouts. It is important to note that the purpose of this grant program is to promote pumpout use and not to promote the organization preparing the materials. Although use of the organization's symbols, name and personnel are allowed, this should not be the primary focus. Specific guidance provided on our website for each project type further details this concept.

All projects must credit the Clean Vessel Program/Sport Fish Restoration for the source of funding for the project.
