REQUIRED PICTURES CHECKLIST

Pumpout Unit and Pedestal

Date: _____

Affix Sticker on Pumpout Unit

Take a picture of the posted sticker provided by EFC.

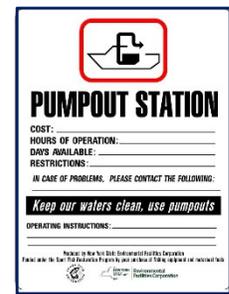

Signs (2)

Post with information; take photos of each sign provided by EFC.

Potty Wand and Attachments

If there is no dump station for portable toilets, the federal regulations require a potty wand. If there is not a potty wand on site, EFC EFC requires proof of having one either through an invoice or picture.

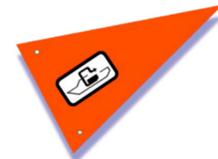

Piping Connected to Pumpout

Follow it as far as it can be seen. If it is under a dock and hard to take a photo, then take a picture of dock where it is located. If piping is buried, take a picture of the area where piping is buried and note that it is buried.

CVAP Flag

Take a picture of the flag posted near the pumpout unit/pedestal & visible to boaters from the water.

Provided by EFC.

Disposal Area - Holding Tank / Sewer Connection

Holding Tank: Take a picture of the holding tank.
Sewer Connection: Take a picture of the manhole or area where the connection is made.

Rinse Water / Hose

Picture Showing Boater Access

View of pumpout looking out into water and picture of water on either side.

Other

TIPS

- ▶ Take general pictures of the area around the pumpout.
- ▶ If a picture can be done of the pumpout from the "boater point of view," this will help for the website. If not, just a picture of the pumpout area.
